### **I. Welcome**

Mrs. Holland welcomed the members to the meeting and reviewed the objectives and agenda.

### **II. 2017-2018 Point Isabel ISD Gifted and Talented Plan Analysis of Section Two: Service Design based on the Gifted and Talented State Plan**

Mrs. Holland distributed copies of the Gifted and Talented State Plan Section Two: Service Design to members to review and analyze in comparison with the PIISD Gifted and Talented Plan before discussing their findings. Attached are the results of the analysis. The following areas yielded discussions:

- 2.1 – The District was a “C” (in compliance) because across the District there are no options during the school day for leadership, arts, and creativity.
- 2.4 – The District was an “E” (exemplary) because acceleration is available through the Exam for Acceleration and in Summit Learning.
- 2.5 – After consulting with Mr. LeVrier, the amount for indirect costs does not exceed the maximum of 45%, as required to comply with the Texas State Plan for Gifted and Talented.
- 2.6.3 – The District could not receive a rating of “R” (recommended) because currently, the advisory committee is comprised of staff and administrators. However, the goal is to add parents of gifted and talented students and community members.

**III. Analysis and Recommendations of the drafted 2017-2018 Gifted and Talented Parent Surveys**

Members collaborated as they reviewed the drafted elementary parent and student surveys and secondary parent survey. Attached are the revised 2017-2018 Gifted and Talented surveys.

**IV. Adjournment**
